Schedule: Oct. 22 (MON), 10:30-11:30

Place: IB-202, National Taiwan University of Science and Technology(台灣科技大學)

Title: Analyses of Cathode and Anode Reactions on Pt-Based Electrocatalysts for PEFCs

Outline:

1. Mechanism of Enhanced ORR Activity at Pt-Alloys
2. Development of Practical ORR Catalysts with High Activity and High Durability
3. Development of New HOR Catalysts with High Activity and High Robustness
